# ORBITAL EXPRESS™ TRUSS

VERSATILE. RECONFIGURABLE. CUSTOMIZABLE.

The bold, contemporary, industrial look of Orbital Express Truss™ exhibits dominates the show floor.

The Orbital Express Truss series is a collection of reconfigurable exhibit backwalls and counters that feature a fixed number of parts and connectors. NO TOOLS are required for assembly; 20' x 20' and 10' x 20' inline kits transition into smaller size exhibits and more.

The versatility and value of the Orbital Express Truss system is unmatched! Set-up and installation of Orbital Express Truss exhibits, backwalls and accessories is easy – simply twist & lock is all you have to do. All Orbital Express Truss display pieces are quality crafted and manufactured in the USA. All fabric and UV-panel graphics are produced in the USA, printed on state-of-the-art, G7 color certified printers, and are finished by hand.

With endless designs and options to choose from, you are certain to find a solution that fits your needs. You can also easily customize your own Orbital Express Truss exhibit and make it completely unique.

**THE ORBITAL EXPRESS TRUSS SYSTEM IS VERSATILE, RECONFIGURABLE & EASY!**

# RECONFIGURATION #3

Easily convert the Corvus 20' x 20' Truss kit to a Polaris 10' x 20' style inline.

Many Orbital Express™ Truss kits convert and reconfigure into different styles and sizes!

Then, convert the Polaris 10' x 20' kit into a Mars 10' x 10' kit configuration using existing parts.
