

RESORT EXTRUSIONS

BIG SKY COUNTER

SET UP INSTRUCTIONS

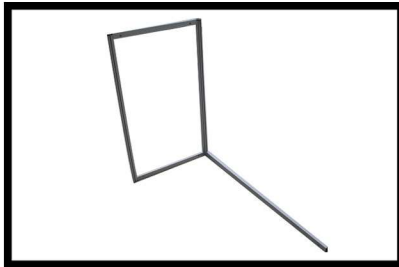

Start by creating end frames.

Connect 2ft horizontal bars to vertical corner bars

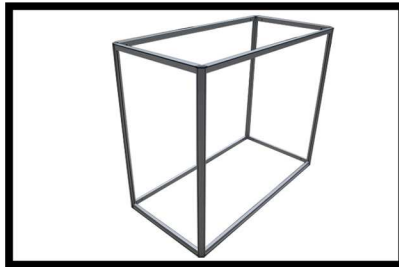

Connect bottom 2' bar and other vertical corner bar. Repeat to create opposite side end frame

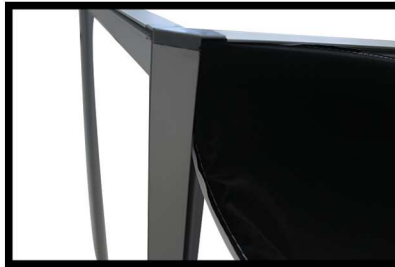

Attach horizontal poles to end frames (Lengths vary between 2', 4' and 6' depending on model)

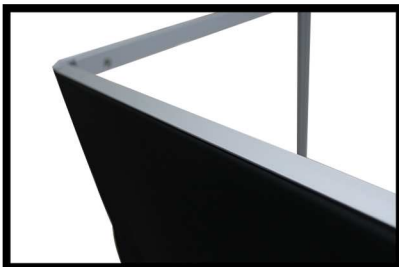

Connect remaining horizontal poles

Attach opposite end frame to complete frame construction

Insert corners of graphics into corners of frames to begin graphic installation

Press silicone beading into frame groove and work your way around the entire frame

Repeat for all sides of the counter

Place acrylic top onto frame. (qty 1 top for 2', qty 2 for 4', qty 3 for 6')

Make sure square pieces underneath acrylic top are flush with the corners

Finished Big Sky Counter
