

Building upon the best features of our best-selling Energy system, our development team incorporated the latest in European patented design and the most sophisticated magnet technology to create Energy X – simply the easiest and most versatile pop up display system available.

The new channel bars are self-adjusting, making this the easiest popup system to assemble. Our unique modular design allows you freedom to create custom designs for your specific requirements. Create the perfect exhibit by adding accessories including our unique XL monitor

- > STRONG, DURABLE AND DEPENDABLE
- > LIGHTWEIGHT COMPONENTS FIT IN WHEELED CASES
- > EXCLUSIVE MODULAR SYSTEM TO CREATE UNIQUE CONFIGURATIONS

ADVANTAGES

EASY-RISE FRAME

- Heavy duty 1/2" diameter aircraft-grade extruded aluminum
- Modular and field repairable with Phillips screw driver
- Patented design with wide foot-print for added stability
- High-rate magnetic frame connectors

SELF-ALIGNING CHANNEL BARS

- Magnetic connection and physical lock for added strength
- Auto-adjusted on the frame - simply hang from the top
- Three-piece hinged for faster setup
- Continuous magnet for seamless graphic installation
- Exclusive high-energy magnetic tape provides maximum bond with graphics

TOP-QUALITY GRAPHICS

- Superb resolution with 1200 dpi HP technology
- Premium light blocking media
- Original HP inks reproduce bright crisp colors
- Protective scratch-resistant laminate adds rigidity
- Long lasting high-energy magnets for quick alignment
- Packed with reusable plastic sleeves for added protection

DURABLE PACKAGING

- Deluxe rotomolded carry case
- Internal bags for frame and channel bars
- Corrugated sono-tube protects graphics
- Compartment for light storage

FUNCTIONAL ACCESSORIES

- Energy XL Monitor mount for screens up to 42" and iPad
- LED or Halogen lights with swivel head for precise lighting
- Header Kits with front and back lighting options
- Back-lighting for any panel
