

Hopup

A variety of sizes, kits and options of Hopup displays are available.

Hopup tension fabric displays are simple, versatile and can be set up in seconds. Hopups feature a lightweight, durable frame that holds a curved or straight fabric mural. Simply attach the graphic, pop (expand) the frame and you have an exhibit. All curved and straight Hopups are available with and without end caps.

NEW stabilizer feet on all straight frames 3 quads high

NEW in-molded Hook & Loop end-caps

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications.

features and benefits:

- NEW lighter weight anodized silver frame with a smaller footprint
- NEW stabilizer feet on all straight frames 3 quads high
- NEW grey in-molded Hook & Loop end caps
- Supports an integrated fabric graphic mural (end caps also available)
- Easy assembly
- Rolling carry bag included with all units
- LED lighting available
- Lifetime hardware warranty against manufacturer defects
- Graphics sizes changed slightly due to new frame sizes yet old graphics are compatible with new frames

- 3x3:** 89.5" w x 89.5" h
- 4x3:** 118.5" w x 89.5" h
- 5x3:** 147.5" w x 89.5" h

Curved Frames:

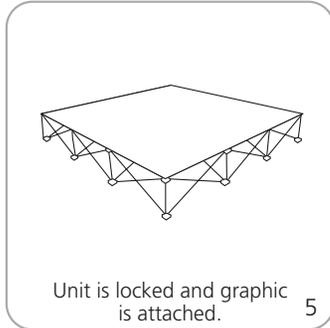

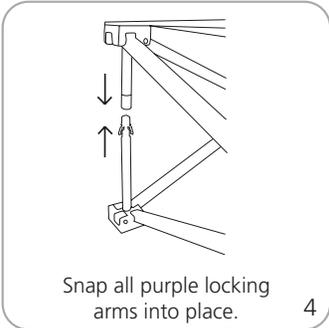

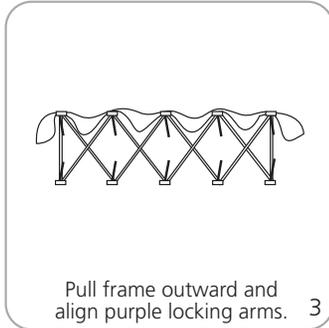

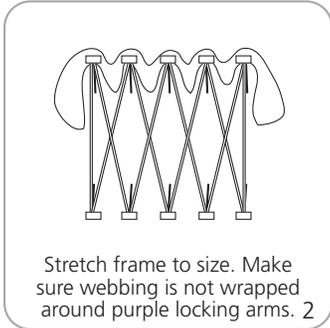

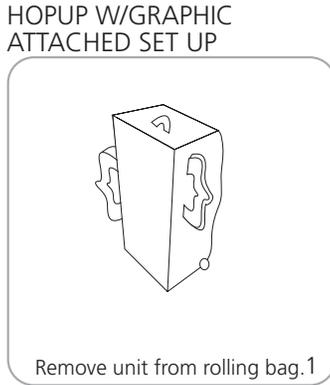

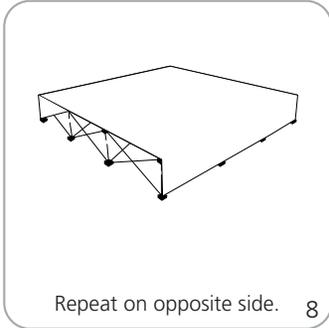

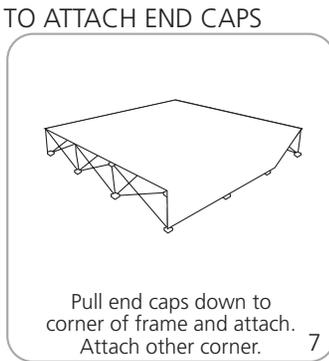

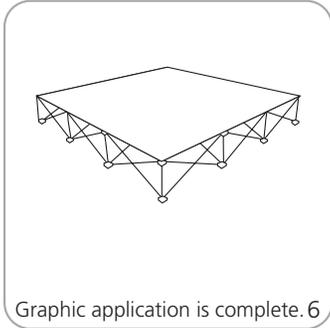

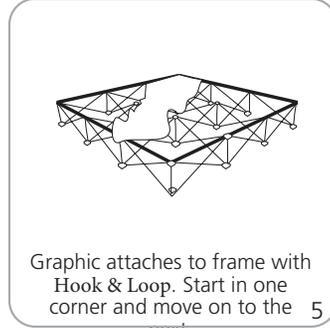

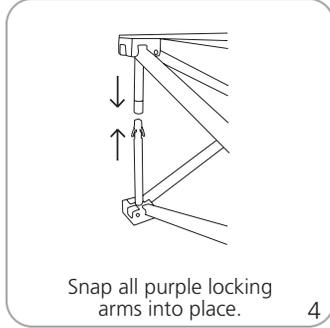

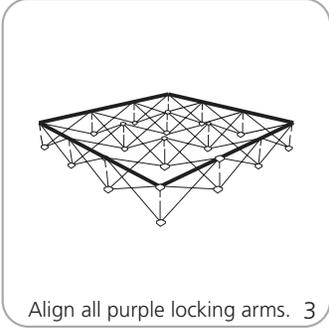

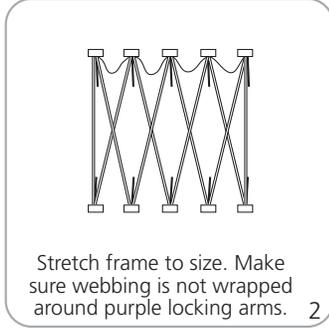

- 2x1:** 55.75" w x 31" h
- 2x2:** 55.75" w x 60.25" h
- 3x2:** 82.5" w x 60.25" h
- 2x3:** 55.75" w x 89.5" h
- 3x3:** 82.5" w x 89.5" h
- 4x3:** 109.5" w x 89.5" h
- 5x3:** 137" w x 89.5" h

*All dimensions available in millimeters
Please be sure to include a 2" bleed around perimeter.
Refer to related graphic template for more information.

additional information:

- Graphics sizes changed slightly due to new frame sizes yet old graphics are compatible with new frames
- Replacement parts available for old and new Hopup
- Refer to page 4 for curved Hopup frame footprints
- Lights & accessories are compatible from old to new design
- 4x3 Hopup now packs with a rollerbag into the OCP or OC-HOP case (optional upgrade)

HOPUP GRAPHIC ATTACHMENT

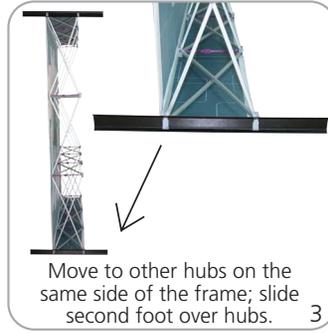

ATTACH STABILIZER FEET

After applying graphic, flip Hopup on its side to access bottom hubs. 1

Start with the largest end of the opening; Slide stabilizer foot over both hubs. Feet will fit snugly over hubs. 2

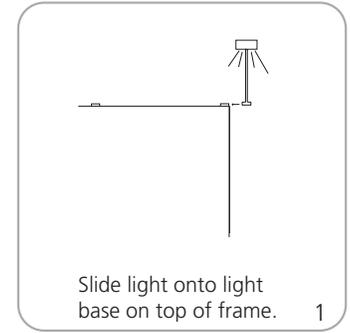

Move to other hubs on the same side of the frame; slide second foot over hubs. 3

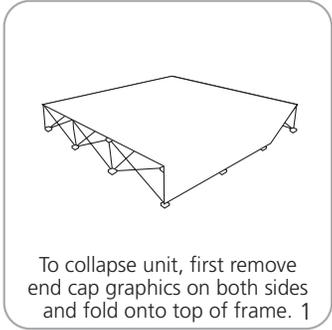

Once finished, flip frame right side up. Unit is complete. 4

TO ATTACH LIGHTS

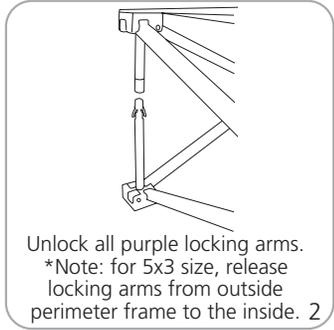

Slide light onto light base on top of frame. 1

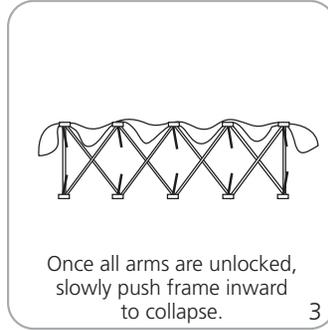

TO COLLAPSE

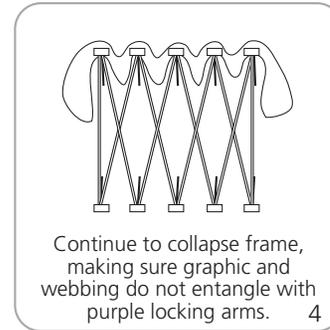

To collapse unit, first remove end cap graphics on both sides and fold onto top of frame. 1

Unlock all purple locking arms. *Note: for 5x3 size, release locking arms from outside perimeter frame to the inside. 2

Once all arms are unlocked, slowly push frame inward to collapse. 3

Continue to collapse frame, making sure graphic and webbing do not entangle with purple locking arms. 4

Store unit into rolling bag. Be sure bag straps do not wrap around purple locking arms. 5

to ensure quality, please note:

If the webbing is wrapped around the purple locking arm, the arm can snap off when opening the unit.

When setting up, ensure that the arms are aligned. If not, the arms will snap when pressure is applied.

When packing unit in the bag, ensure that the strap is not partially wrapped around an arm. If it is, the arm will snap when pulled out of the bag.

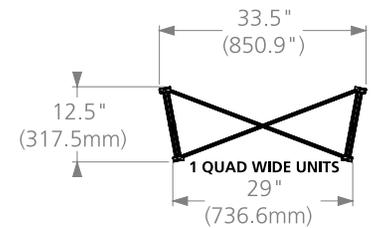

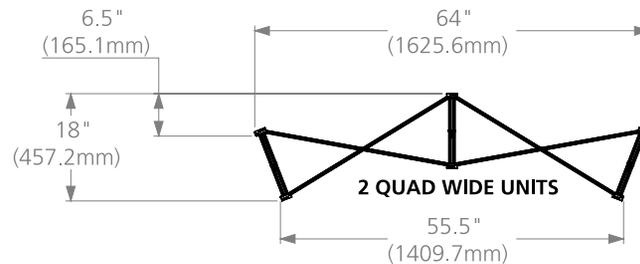

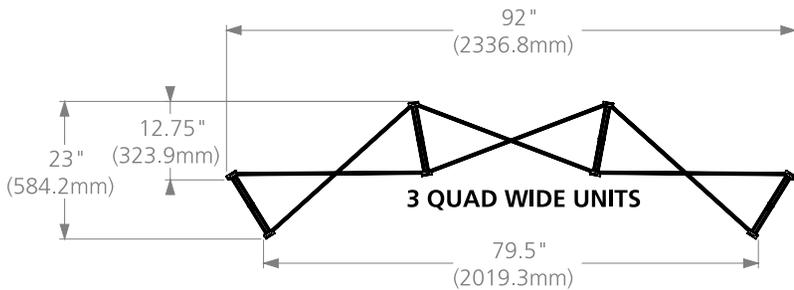

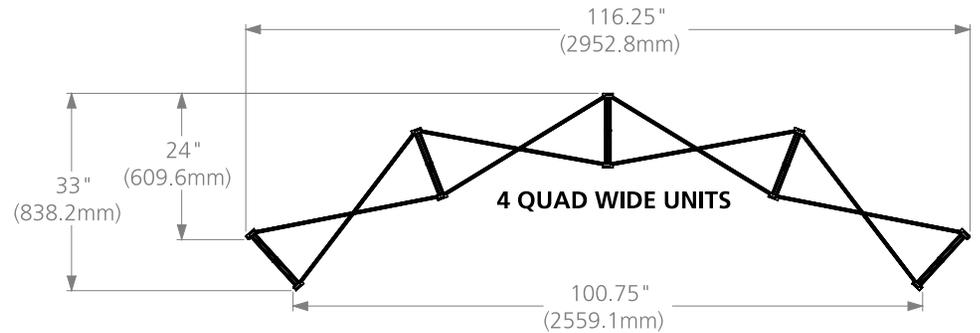

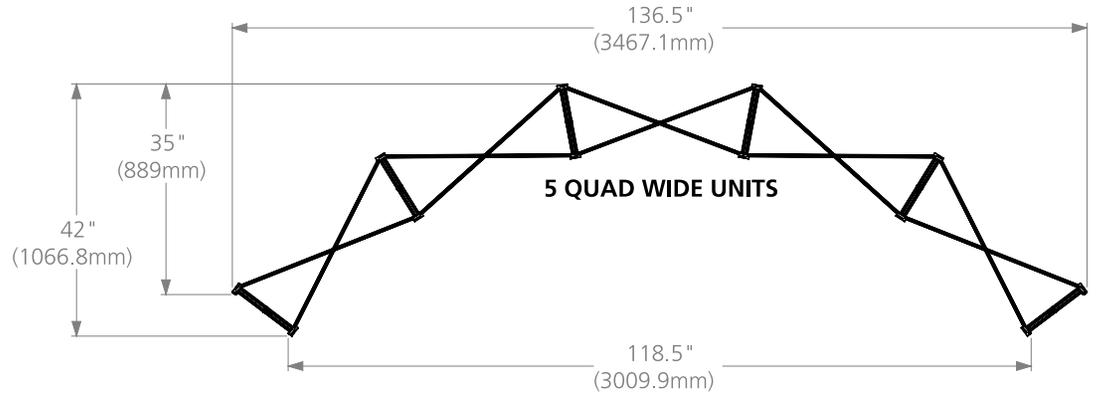

When placing in a non-roller bag, ensure that arms are not outside of the bag.

Do not use the purple locking arm to lift unit. ALWAYS lift by the frame.

Curved Hopup

The curved HopUp gives your tension fabric backwall visual interest and dimension.

Straight Hopup

Straight Hopup frame footprints fit in a 10' x 10' space, with the exception of 5 quad wide units which fit in a 10' x 13' space. Stabilizer feet present on all straight frames 3 quads high.
