

Step 1. Hang a banner clip on the top beam a few inches from the corner and roll the fabric over so that the magnet slides into the clip. Also install a banner clip on the upright portion and slide the sintra into that.

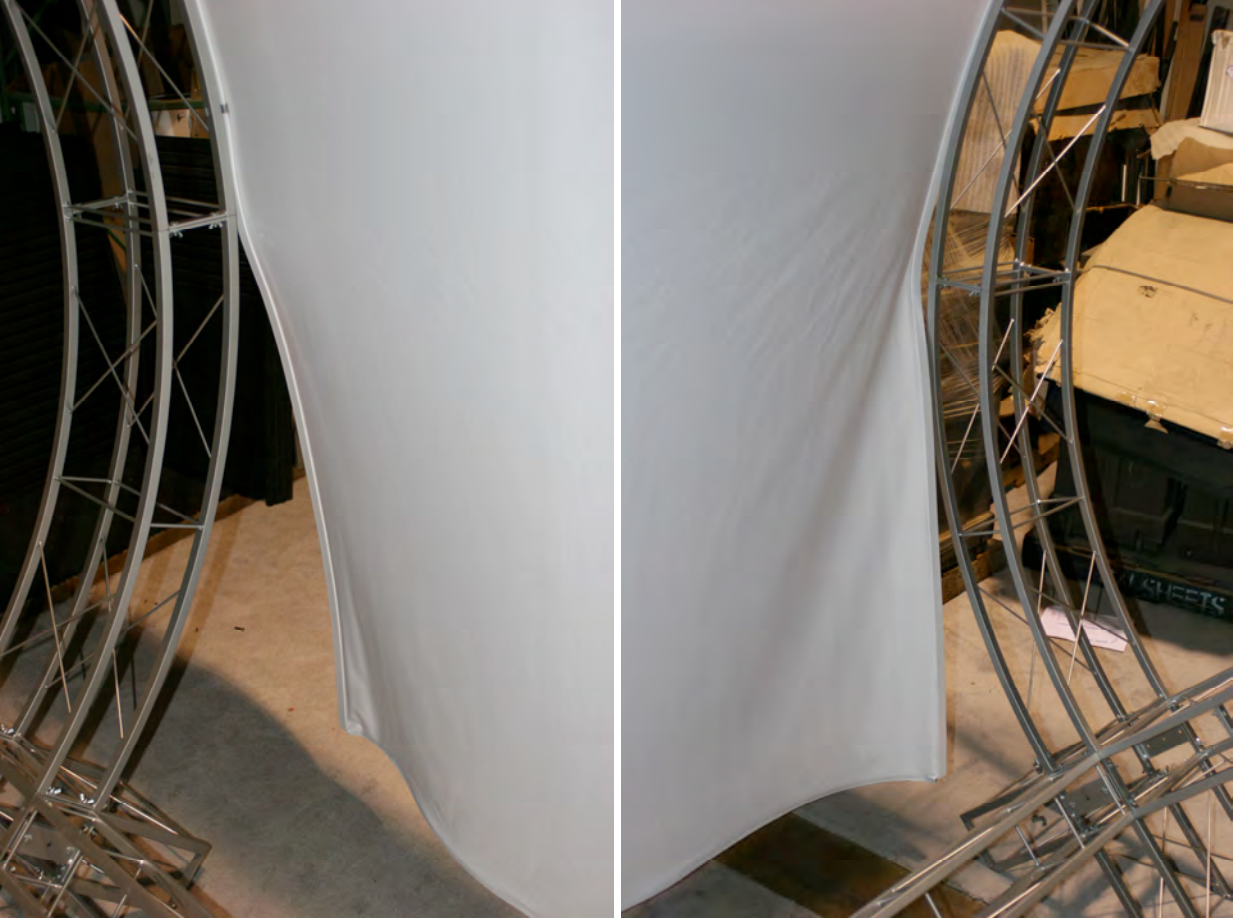

Step 2. Keeping some tension on the graphic, repeat on the opposite end.

The banner should now look like this.

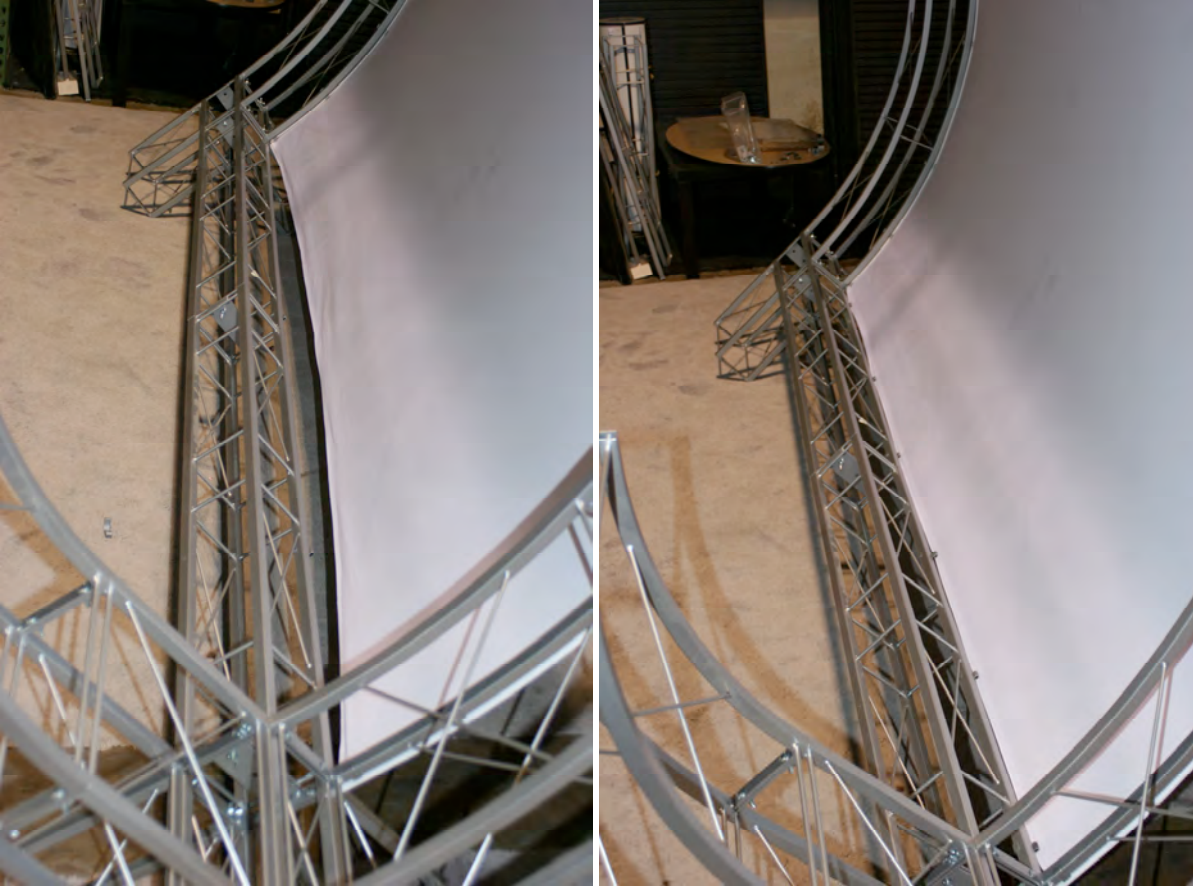

Step 3. Work your way across the top beam using 5 or 6 clips rolling the magnet in until the top of the banner is well secured.

Step 4. Work your way down each side using 5 or 6 clips sliding the sintra in until the sides of the banner are well secured. It is best to do 1 or 2 per side and then go to the other side working your way down evenly.

Step 5. Work your way across the bottom beam using 5 or 6 clips until the bottom of the banner is well secured.
