

Product Parts

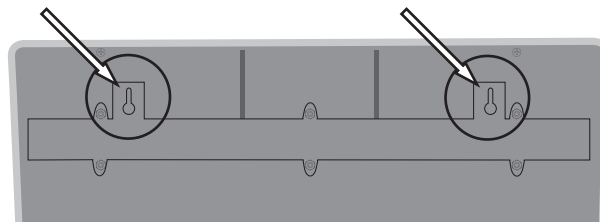

1. LiteWriter
2. LiteWriter Marker
3. Power Cord
4. Graphic*
5. Chain with clips

Display Set-Up

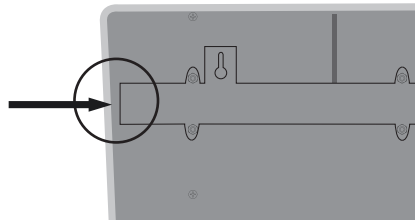

Step 1

LiteWriter (1) is intended for being displayed vertically. Attach clips on Chain (5) to mounting holes on back of LiteWriter (1).

Step 2

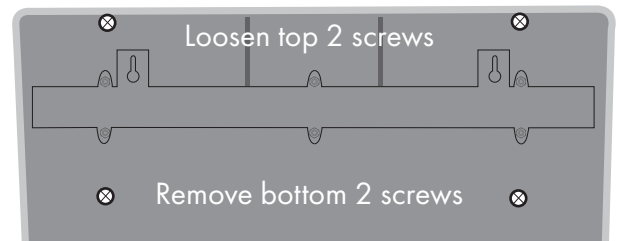

Plug in Power Cord (3) to LiteWriter (1) then plug into wall outlet. Use the in-line switch on Power Cord (3) to easily switch on/off.

Graphic Installation

Step 1

On the back of LiteWriter (1) are 4 screws that hold the graphic frame onto the display. Using a Phillips screwdriver (not included) LOOSEN the top 2 screws and REMOVE the bottom 2 screws.

*Graphic is already installed if ordered as a kit.

Step 2

Gently lift graphic frame up from bottom edge and install Graphic (4) centered into frame. Re-insert and re-tighten the 4 screws. Do not overtighten.

Storage & Care

Store in a cool dry location.
Clean hardware by wiping with a damp cloth. Erase using a damp lint free cloth.
