

Stabilizer Mounting  
Plates keep sign from  
wobbling in wind.

Predrilled pole provides  
holes to accommodate  
various sizes of sign panels.

Finial on top of  
pole provides a  
comfortable handle  
for gripping the sign  
when moving from  
place to place.

Add up to 3 gallons of water  
or sand for added stability.

Large 3" wheels are great  
for rolling sign over rough  
pavement and up and  
down steps.
