* Banner is NOT included with hardware only

Display Set-Up

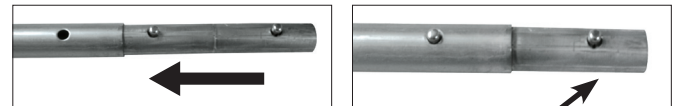

Step 1

Assemble frame on the ground by pushing in the button on the 90° Connectors (3) and inserting one each into two of the Steel Top Poles (2).

Step 2

To create a larger width frame, your kit may come with Pole Connectors (5). Insert them between two Steel Top Poles (2) to create one long pole.

Insert this end into second pole

Step 3

Insert the 3-Way Connector (4) into both Steel Top Pole (2) ends and place on the ground.

Step 4

With the top portion of the frame on the ground, dig three 8" deep holes where the Connectors (3,4) touch the ground.

*Use safety precautions before digging.

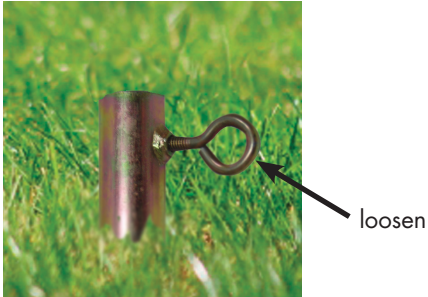

Display Set-Up Continued...

Step 5

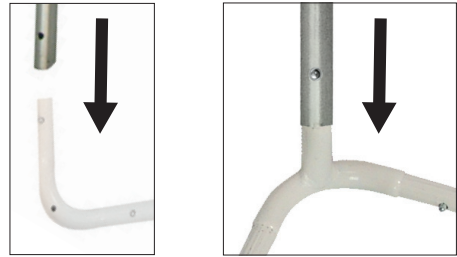

Insert the Optional Ground Sleeves (6 - Sold Separately) into the ground holes. Pack dirt or sand around to hold them in place.

Loosen the Eye Bolts to prepare for the Steel Side Poles (1).

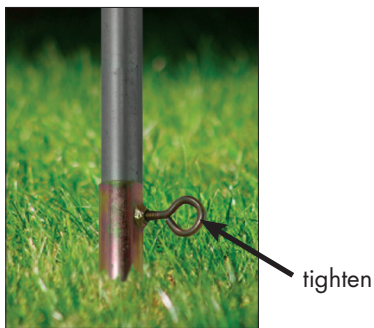

Step 6

Place top section of frame on it's back and slide the Steel Side Poles (1) over the Connectors (3,4).

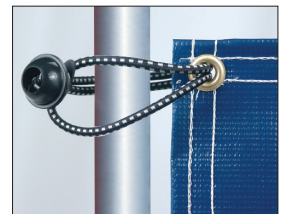

Step 7

Flip the frame over again and insert the Steel Side Poles (1) into the Optional Ground Sleeves (6 - Sold Separately). Tighten the Eye Bolts to secure.

Step 8

Hang your banner with Ball Bungees (7).

Storage

Place all product parts into shipping box and store in a cool, dry location.

Care

To clean, wipe with damp cloth.

Warranty Information: All products are designed to provide the user with a cost-effective and durable product. Standard warranty is a 'one year parts and labor' warranty which warrants product against defects in material and workmanship. It does not cover damage due to accidents, abuse, or normal wear and tear. Products found to be defective will be replaced or repaired at factory's discretion.
