

# Set Up Instructions

# WLMST-MONITOR STAND

Step 1: Prepare contents for assembly.

Step 2: Remove drain screw and add water to base using the funnel provide. Insert drain screw back into hole and tighten securely to prevent leaking.

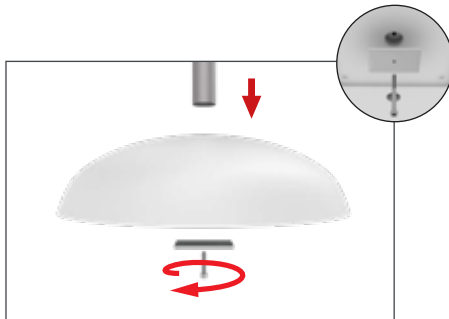

Step 3: (OPTIONAL GRAPHIC) In a clean, dry area, assemble the fabric onto the base by angling and tucking the silicone gasket into the bottom groove.

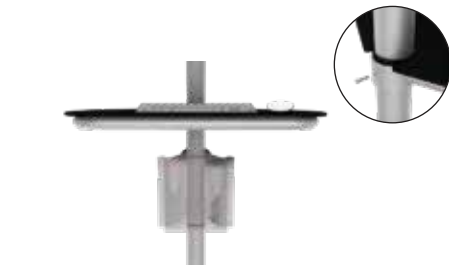

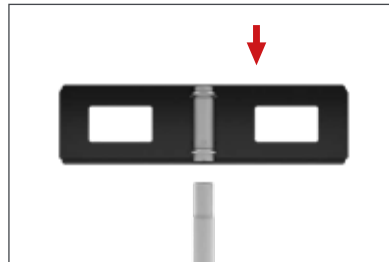

Flip base over carefully to prevent damage to graphic and repeat for top groove.

Step 4: Insert the center support pole into base of bubble. Screw the base plate through the bottom of the base into the pole.

Step 5: Insert mounting plate to center support pole..

**SHELVING & BROCHURE HOLDER:**  
(OPTIONAL) Add-on brochure holder and then shelf after (Step 5) and before (Step 6) attaching the mounting plate.

## Set Up Instructions

## WLMST-MONITOR STAND

Step 7: Attach x2 - VESA Mounting Bars to the desired position on monitor with x4 screws. Use the same position on each side of monitor for both mounting bars.

Step 8: Hinge VESA Bars onto Mounting Plate until the monitor hangs freely on its own.

Step 9: Secure VESA Bars onto Mounting Plate two locking screws to keep monitor from sliding on the mounting plate.
