Hopup Backlit 4X3 Straight Full-Height Display

HOP-2-BL-4X3-S (Hardware Only Kit)
HOP-2-BL-4X3FGE-S (Hardware and Graphic Kit)
The Hopup™ 10ft (4 quad x 3 quad) straight backlit tension fabric display adds illuminated messaging to your exhibit. LED lighting attaches to the aluminum frame without requiring tools to assemble, and custom designed graphics pop out as a result. High quality materials and long lasting LED bulbs provide an extended lifespan for this Hopup display, which can be used continuously in a large number of display spaces to fit your needs. This versatile display comes with a wheeled carry bag and molded protective case, making shipping and storage quick and easy.

features and benefits:

- Lightweight 10ft wide (4 quad x 3 quad) straight anodized silver frame
- White in-molded hook and loop end caps
- Supports an integrated fabric graphic mural wtih endcaps
- Rear diffuser graphic panel for single-sided units

- LED lights easily attach to the collapsible frame
- Comes in a molded, wheeled OCX case
- Lifetime hardware warranty against manufacturer defects on frame
- Lights have a one year limited warranty

dimensions:

Hardware	Graphic
Assembled unit: 119"w x 90"h x 29"d 3023mm(w) x 2286mm(h) x 737mm(d) Approximate weight: 56 lbs / 26 kg	Refer to related graphic template for more information. One year warranty.

Shipping	additional information:
Packing case(s): 1 OCX Shipping dimensions: 40"l x 27"h x 18"d 1016mm(l) x 686mm(h) x 458mm(d) Approximate total shipping weight: 88 lbs / 40 kg	Always unplug the two female connectors from the power supply when raising the frame up or down.

Kit Assembly

Step by Step

Step 1.

Unpack the frame from the bag. Stand with backer side toward the floor. Stretch out the frame so it lays flat on the floor.

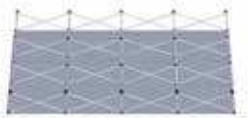

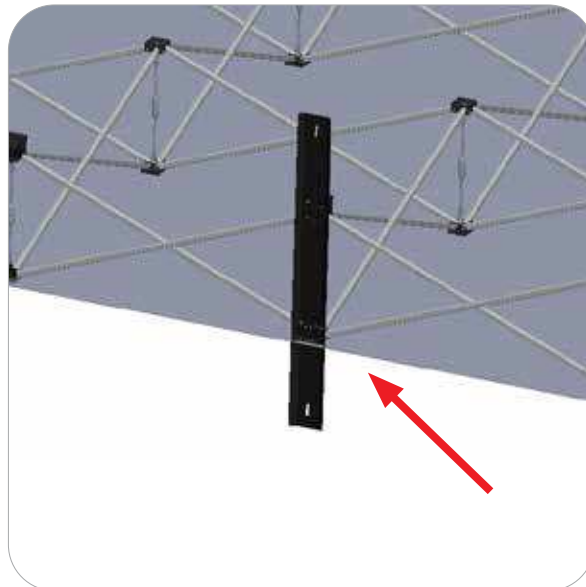

Step 2.

Lock the connecting arms into place. Stand the frame upright once all the connectors are securely snapped in the lock position.

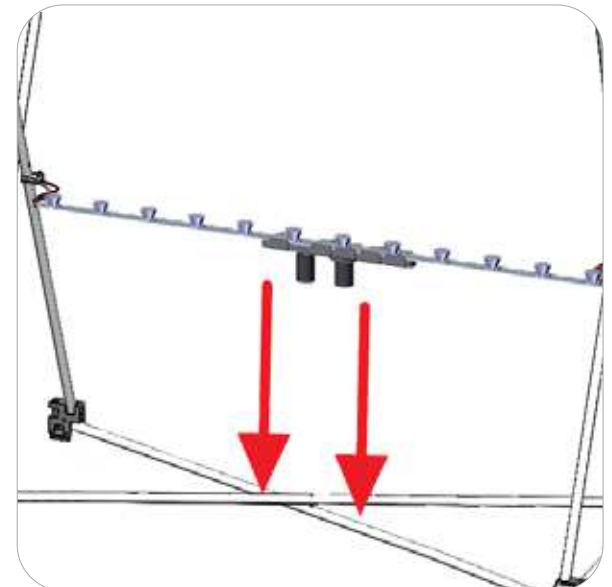

Step 3.

Attach the stabilizing bases. Secure them in place while you stand the frame upright.

Step 4.

Gather all the lighting strips and align so they are over each "X" of the frame, then pull the spring-loaded clip apart to fit onto the "X". Make sure the orientation of the male and female connectors allows for linking them together.
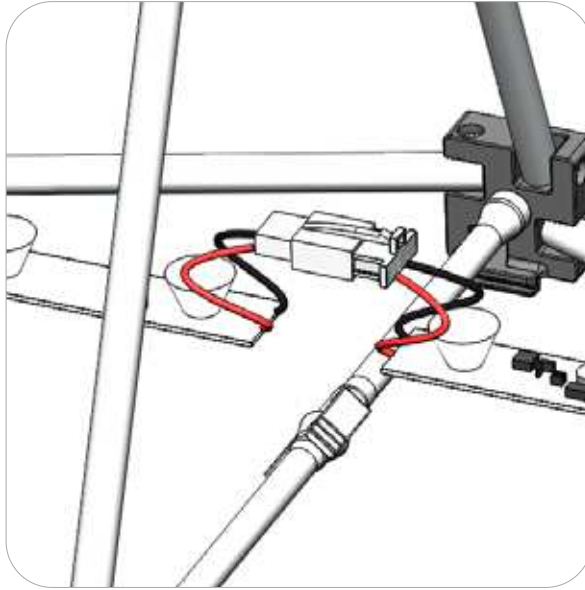

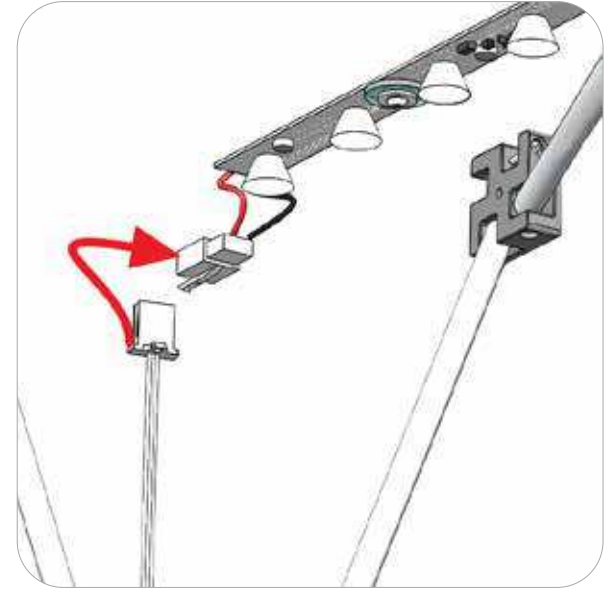

Kit Assembly

Step by Step

Step 5.

Connect the light strips in series for both top and bottom sides.
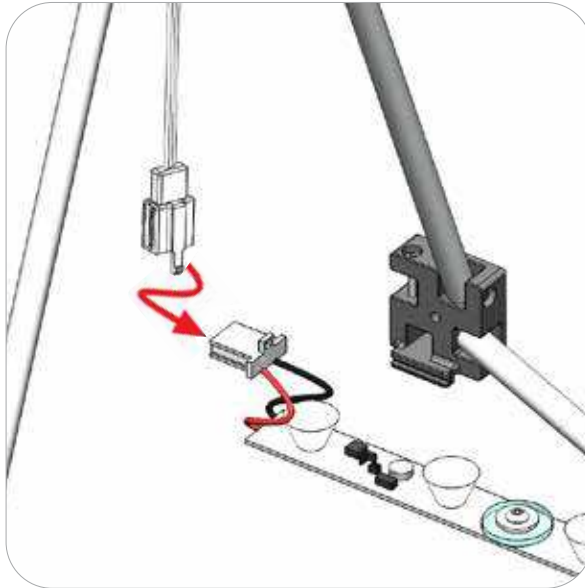

Step 6.

Connect the long extension cord to the female end of the top light strips in series. Run the long extension cord down the side.
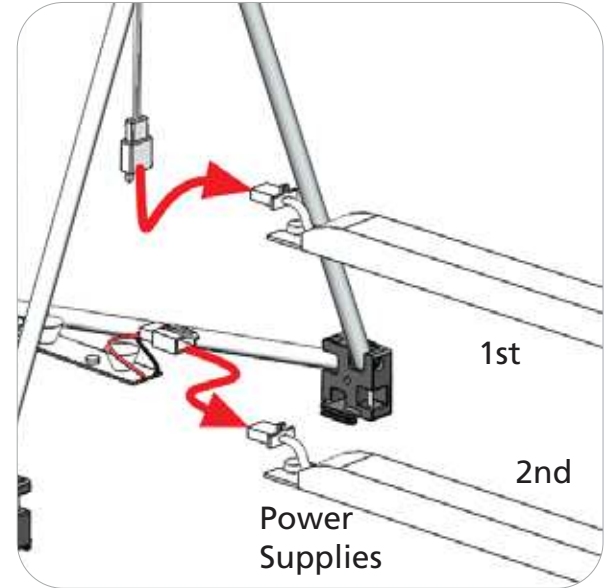

Step 7.

First, attach the extension cord from the top row of lights to bottom row of lights.

Step 8.

First, attach the extension cord from the top row of lights to first power supply. Then, attach the bottom row of lights to the second power supply.

Plug in the power cord for test lighting.

Step 10.

Once the lights are all set, it is
important to disconnect the
power to the lights before
appling the graphic.
Lay the frame back down on the
floor. Apply the graphic to the
frame, the endcaps do not have
to be immediately applied.

Step 11.

Stand the unit back to the
upright position. Power On the
lights and verify that they all
work. Apply the end caps by
wrapping them to the back side
and **hook & loop** them closed.

Setup Complete.
