Gather the components to build the monitor supports. Use the Exploded View for part labels.

Step 6.
Gather the components to attach supports to the monitor. Use the Exploded View for part labels.

Step 7.
Setup is complete.

Connection Methods

Connection Method 1: ATTACH MOUNT TO STAND ─────────────────────────

First, attach bracket to stand using both hands to hold in place. Once front and back brackets are lined up, insert bolts. Tighten to ensure monitor mount does not move. Do not over tighten, may damage stand or hardware. Monitor should be attached last. Do not try to attach brackets with monitor attached. This may lead to damaging monitor or injury.
