

MODify: DS 01

Total graphic area: 38.625" w X 15.875" h
Total visual area: 34.625" w X 11.875" h

Please be sure to include the 2" bleed around the perimeter. Do not design any critical elements (text, logos, etc.) within 2" of the edge (see light gray for safe area). Please keep in mind that the graphic will also be obstructed by anything displayed on the shelves.

General Art Guidelines:

- CMYK Color Mode
- All Solid Coated Pantone colors should be called out in the art as spot colors
- Embed all images and support files
- Resolution must be 100-120 ppi
- All fonts must be created to outlines
- Do not scale artboard
- Background color/images must bleed to the edge of artboard
- Do not use spot colors from template in your artwork as they will not print

PANEL A (front)

The diagram illustrates the layout for the back of Panel B. It features a central light gray rectangle representing the panel. This panel is enclosed within a larger dashed-line rectangle, which represents the bleed area. The text 'PANEL B (back)' is centered within the panel. To the right of the panel, three horizontal lines with labels indicate the boundaries: the top line is the bleed area, the middle line is the trim line, and the bottom line is the safe area.
